

## Yoshi City

Yung Lean

Stockholm city we're burned out  
Yoshi city we burn it down  
I guess it's my turn now  
Smoking loud I'm a lonely cloud  
I'm a lonely cloud, with my windows down  
I'm a lonely, lonely, I'm a lonely, lonely

Be the only hope I got left  
Blessed without success  
Fuck stress I'm gonna trust the best  
I'm nervous that she's so upset  
She don't want me, bitch I'm flustered  
I'm an aristocrat without the progress  
Roses all on her wedding dress, blood from her mouth, I'm a mess  
Alien faces everywhere I go  
Downtown bitch that's where I smoke  
Got my heart next to my phone  
Do or die? Stupid high  
Lonely nights, finna sacrifice  
Fuck your life I need mine  
I'll take yours and rewind  
Walk in my shoes you'll see why  
Fuck everyone, I don't reply  
Sad boys bitch we world wide  
Grey sweatshirt, L size  
Wakizashi and grape Nikes  
Fuck norms, fuck a normal life  
Fuck norms I'll break em out  
A year and I'll blow that's what I said  
Lean, lean, lean you got it in your head  
Like a disease you know I spread  
I can't sleep with out you on my bed  
Yoshi city, that's the town  
All me, I came up now  
Sad boys, time to burn it down  
Windows down, face out  
Squad up when we riding now  
We riding now

Stockholm city we're burned out  
Yoshi city we burn it down  
I guess it's my turn now  
Smoking loud I'm a lonely cloud  
I'm a lonely cloud, with my windows down  
I'm a lonely, lonely, I'm a lonely, lonely
