

# This Glass World

Yusuf Islam

In this glass world, we stop feeling pain  
Going nowhere, we've got everything  
In this glass world, people who live below  
Wish they were here, just looking in.

In this glass world  
In this glass world  
In this glass world.

In this glass world, we bathe by starlight  
No troubles here, that's on the outside  
In this glass world, sittin' without a cake  
No need to move, it's way too nice up here.

In this glass world  
In this glass world  
In this glass world.
