

# Angel

Zandelle

All these years I've waited for you  
In that time so near yet so far  
Passing ships out in the night time  
Distant beauty like a shining star

Now you're here an angel from heaven  
Eyes that shine touch my soul  
When you smile I feel like I'm flying  
With you here by my side, my life is whole

I love to look into your eyes  
To hold your hand and feel you near  
Lips so soft, my heart starts racing  
Ecstasy for you I feel

Now you're here an angel from heaven  
Eyes that shine touch my soul  
When you smile I feel like I'm flying  
With you here by my side, my life is whole

Time stands still when you're with me  
How I wish you'd never leave  
When you're away I feel so empty  
All these words you must believe

Now you're here an angel from heaven  
Eyes that shine touch my soul  
When you smile I feel like I'm flying  
With you here by my side, my life is whole
