

She's Not Me (Pt.2)

Zara Larsson

Said I wonder now
Yeah I wonder how you've been
Are you happy?

Is she still the one?
Are U having fun?
Is it for real?
Baby...

Cause I'll be waiting here
Another week, or month or year
If you're lonely

God I wish I knew everything
About the two of you
Won't you tell me

Does she have any humor?
Does she laugh at your jokes?
Can she look past the rumors?
Does she know how it goes?

Or is it none of my business?

Do you go to the movies?
Do you make out in the park?
Do you stay up for hours?
And just talk and talk?

Or is it none of my business?

Does she know bout the bracelets?
There were two of a kind
Did you save did you save it?
Like I did mine

Or is it none of my business?

Would it make any difference
If I got you alone?
If I called would you listen?
Would you hang up the phone?

Or is it none of my business?

None of my business
Is it none of my business?
None of my business
Is it none of my business?

She's not me - and she'll never be, never be, never be
She's not me - and she'll never be, never be, never be
She's not me - and she'll never be, never be, never be
