

Uncover

Zara Larsson

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others
Close to each other.

In the daylight, in the daylight
When the sun is shinin'-
On a late night, on a late night
When the moon is blindin'
In the plain sight - Plain sight
Like stars in hidin'
You and I burn on, on.

Put two and to-gether - for-ever
We'll never change
Two and to-gether
We'll never change.

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others
Close to each other
That's when we uncover, cover, cover
That's when we uncover, cover, cover.

My asylum, my asylum
Is in your arms
When the world gives heavy burdens
I can bear it thousand tons
On your shoulder, on your shoulder
I can reach an endless sky
Feels like paradise.

Put two and to-gether - for-ever
We'll never change
Two and to-gether
We'll never change.

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others,
Close to each other.
That's when we uncover, cover, cover,
That's when we uncover, cover, cover.

We could build a universe, right here
All the world could disappear.
Wouldn't notice, wouldn't care
We could build a universe, right here
The world could disappear
Yeah, I just need you near.

Nobody sees, nobody knows
We are a secret, can't be exposed

That's how it is, that's how it goes
Far from the others
Close to each other
That's when we uncover, cover, cover
That's when we uncover, cover, cover
That's when we uncover.
