

## Icarus Interlude

Zayn

Ooh-ooh (Ooh, ooh, ooh)  
Ooh-ooh (Ooh)  
Ooh

Call me Icarus  
I guess I flew too close to the sun  
Myth, they call me legend, that might be why  
In my Yves Saint Laurent  
Get the bees comin' in for the honey I supply

And if you ain't got it now, then you're in for a surprise  
You won't get it in a lifetime (Lifetime)  
I'm in the right place at the right time (Right time)

Girl, you love me better than anyone  
Girl, you love me better than I've known  
Girl, you love me better than I've known before  
Better than I've known before  
(Better than I've known before)

(Ain't no stoppin' what I know) (Before)  
(What I know, ain't no)

Ain't no stoppin' how I feel  
Plays on my mind in slo-mo  
Every time as if it were real  
Every night, oh, it's you I feel  
That's who you are in my mind

I've been lyin' to the liars  
I've been lyin'  
I've been lyin' to the liars  
I've been lyin' to the liars  
I've been lyin' with the liars  
Every night  
Lyin'  
'Cause I'm flyin'  
I've been lyin' to the liars  
Lyin' to the liars
