

# Natural

Zayn

It's just like breathin', speakin'  
When we touch, like a force of nature  
Not just a feelin', let's believe it  
The birth of love like a force of nature

Undeniable (It's our love)  
Unforgettable (It's our love)  
Nothin' compares to when  
I feel you on my skin

It feels so natural, natural  
When we come together  
Like a force of nature  
It feels so natural, natural  
When we come together  
Like a force of nature

When we come together, together, together  
When we come together, together, together

Pure heart, deeper  
Beautiful, like the bluest ocean  
Like a wave we broke down  
The barriers, like the bluest ocean

It's incredible (It's our love)  
Unforgettable (It's our love)  
Nothin' compares to when  
I feel you on my skin

It feels so natural, natural  
When we come together  
Like a force of nature  
It feels so natural, natural  
When we come together  
Like a force of nature

When we come together, together, together  
When we come together, together, together

Like a hurricane (It's our love)  
Like a hurricane (It's our love)  
Like a hurricane  
When we come together

Like a hurricane (It's our love)  
Like a hurricane (It's our love)  
Like a hurricane  
When we come together

It feels so natural, natural  
When we come together  
Like a force of nature  
It feels so natural, natural  
When we come together  
Like a force of nature

Let's come together, come together  
Right now, right now  
Let's come together, come together  
Right now, right now  
Come together, together  
Right now
