

## Feel So

Zeds Dead

Months later we let go  
Look over my shoulder  
City lights are fading  
As the street gives way  
Don't stage your reaction  
'Cause I got traction  
Travel in a pack  
Just like a motorcade

Turn it up, we're getting closer  
Hands behind the wheel  
We've been on our worst behavior  
Sun won't rise until

'Cause this shit's getting real  
As we begin to feel  
And I'm feeling like I feel so good  
And I'm feeling like I feel so good  
And I'm feeling like I feel so good

Look over my shoulder  
See you bolder  
Tryna keep your distance  
In the safest way  
I see your reaction  
I'm in the action  
You and me together's  
Just the simplest way

Turn it up, we're getting closer  
Hands behind the wheel  
We've been on our worst behavior  
Sun won't rise until

'Cause this shit's getting real  
As we begin to feel  
And I'm feeling like I feel so good  
And I'm feeling like I feel so good  
And I'm feeling like I feel so good
