

i think you're cool

Zeds Dead

Do you ever look in front of you, see exactly what you wanted to do?

'Cause every time I do I see you
And every time I go away, I just wanna come back
Just to see you sitting there like that, just like that

'Cause these days I feel like I can't win
Seems like everybody wants a piece of something
But you just want my love
You think that's enough

And I think it's cool that you care
I think it's cool that you care
I think it's cool to care
I think it's cool
I think you're cool

I've been running lately, when you look at me, what you see?
If there's somewhere else you'd rather be than with me
And even when I go away, I'll find you when I come back
And instead of gettin' mad, you'll laugh just like that

'Cause these days I feel like I can't win
Seems like everybody wants a piece of something
But you just want my love
You think that's enough

And I think it's cool that you care
I think it's cool that you care
I think it's cool to care
I think it's cool
I think you're cool

I think it's cool
I think it's cool
I think it's cool
I think you're cool
