

# We Could Be Kings

Zeds Dead

I go straight to the heart of it  
My eyes burning like a parliament  
I woke up early just to tell you that I'm sorry  
That it's getting lonely in this apartment

You know that we got potential  
I know that love isn't free  
Sometimes what's right isn't simple  
That doesn't mean you should leave

When I found you  
That's what I hold tight  
You're like my lone star  
On a black night  
It's true  
No limit to what we could do

We could be kings  
We got a chance  
This could be fate  
Something that you can't forget, can't forget  
We could be kings  
We got a chance  
This could be fate  
Something that you can't forget, can't forget

Never said it would be easy  
Know that I mean it, I do  
Want you to care when I tell you  
It's something you know I can't lose

When I found you  
That's what I hold tight  
You're like my lone star  
On a black night  
It's true  
No limit to what we could do

We could be kings  
We got a chance  
This could be fate  
Something that you can't forget, can't forget  
We could be kings  
We got a chance  
This could be fate  
Something that you can't forget, can't forget  
We could be kings
