

## You and I

Zeds Dead

Light me up a cigarette and put it in my mouth  
You're the only one that wants me around  
And I can think of a thousand reasons why  
I don't believe in you, I don't believe in you and I

Go ahead and fill my drink up, you'll still be all I think of  
We try and stay afloat, but know the weight will sink us  
I say the problem's solved once you forget the question  
But you go ask again cause you ain't learned your lesson  
And to the heavens I promise you no regrets  
But my mind's left in the past so that promise was never kept  
To be honest I fell astray - call it lost on the way  
So certain in my intentions, I thought that I'd never sway  
But between the cameras flashing, I guess that it had to happen  
The negatives to the perfect picture, I had to have them  
And my collection consists of all that I had to take  
We celebrating the sacrifices we had to make  
We had to wait, unprepared for the loss  
Oversold on the win and unaware of the cost  
Cause I can write a song but can't unwrite my wrongs  
I guess you live and learn, learn when the love is gone

Now here we are again, back from our dark descend  
We'll keep this happiness going 'long as we all pretend  
It seems we built this from nothing but broken dreams  
These memories we'll forget but that's all that we hope to see  
I got my future and it's ticking, life is yours if you live it  
You wish you could plan it different but fuck it, that's how yo  
u miss it  
I always hoped you would visit, always thought it was you  
Always caught in the past cause it's all that I fucking knew  
I mean, it's funny, ain't it? Guess it's all how you paint it  
It's all that I really got, but it's all for the entertainment  
The champagne's on the dresser, empty from all my efforts  
The life of yesterday's party gets carried off on a stretcher  
And here we standing like everything's how we planned it  
But who're we kidding? We drinking so we don't panic  
Drunk off that lucky 7, go ahead and tell the reverend  
We fuckin' rock stars - call us Zeds Deppelin
