

## Falling Into The Absu

Zemial

Crawling into the crypts below  
Inside the kingdom of sands  
Buried beneath the ancient dust  
Perverted race of slaves

I travelled race to the stars  
And fell shaking before them

I reached the palace of  
Death and eternal thirst  
Through the gates of ghanzir  
I found the way pass through  
And enter the forgotten kingdoms

Temple of the lost ones  
Perverted race of slaves

Beyond the grave  
Eternal ruins  
I hear the god idolatos that growls

View from the graves  
Taste the loss (eternal light)  
I shall never disturb  
His mystic dreams

My thoughts are blind (pure)  
He stares at me under his sinking veil  
I shall serve the mosity grave  
The blinded master laughs within his throne
