

Need You Like A Drug

Zeromancer

Inject, need you like a drug
Shoot it up

You've got a halo hanging over your head
Nothing can touch you
Nothing can hurt you

You take the world out of my eyes
You suck the words out of my mouth
When we kiss

Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug

Don't ever want to be like you
You have your friends calling you to say
That nothing can touch you
Nothing can hurt you
Nothing can take your fantasy away
Nothing can touch you
Nothing can hurt you
When we kiss

Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug

You keep fucking it up

It stings like a needle in me

You keep fucking it up

Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up

Need you like a drug
Need you like a drug

Can't make it stop
Keep fucking it up
Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug
