In The Morning

I only call when I'm alone I only call when I'm alone

I only call when I'm alone I only call when I'm alone

Touch me in the morning I'll tell you while you're moaning, baby There's something in this water So drink it 'til you're falling for me Touch me in the morning I'll tell you while you're moaning, baby There's something in this water So drink it 'til you're falling for me

Touch me in the morning Touch me in the morning

I only call when I'm alone I only call when I'm alone I only call when I'm alone I only call when I'm alone

Touch me in the morning

Touch me in the morning I'll tell you while you're moaning, baby There's something in this water So drink it 'til you're falling for me Touch me in the morning I'll tell you while you're moaning, baby There's something in this water So drink it 'til you're falling for me

Touch me in the morning
