

Avalanche (Slow)

Zola Jesus

In the end I saw you
Visions of something I wasn't used to
And I let it all go, oh
With my heart, with my body, with all

And it all falls down
And it all comes around
And it all goes down
And it all comes
Oh, it all comes around

And I knew it will be you
Coming at me like you do
Feel my heart, my soul with fire
And I won't know
No, I won't know who you are

'Cause it all falls down
'Cause it all goes down

And it all falls down
And it all goes down
And you never let it go
And it all comes down
