

Hunger

Zola Jesus

Oh I got the hunger
It moves but won't lose it
I'm not getting younger
I use it abusively
I got the hunger
I got the hunger in my veins
I won't surrender

Until it takes me away
I got the hunger
I got the hunger in my veins
It's taking me under
Until it takes me away
It's been five years waiting for the unfold
Throat sore on swallowed gold
Sick of being sick
Tired of these wired ways

It won't save me
It won't replace me no
I got the hunger it will not let go
I got too many worlds to know
I got the hunger
I got the hunger in my veins
I won't surrender
Until it takes me away

I got the hunger
I got the hunger in my veins
It's taking me under
Until it takes me away
It's been too many times I've tested my cells
Waiting on point nemo
Absolute zero
Mother lung give me a hard shake

Self-abuse maze I gotta break
It won't let up
It won't save me no
I got the hunger it will not let go
I got too many words to sew
I got the hunger
I got the hunger in my veins
I won't surrender
Until it takes me away

I got the hunger
I got the hunger in my veins
It's taking me under
Until it takes me away
And it's all that I want
All that I need
I got the hunger
I got the hunger in my veins
I won't surrender
Until it takes me away

I got the hunger
I got the hunger in my veins
It's taking me under
Until it takes me away
