

It's Not Over

Zola Jesus

You wanna forget
All the nights and days out on the hunt
You wanna forget
But you can no longer push it all away now
Away now
And it hits you for the first time
Away now
Away now
And it won't become the last
It's not over tonight
It's not over tonight
It goes away now
Away now
But it's not over tonight
You fall on your back and sink
As it locks you into place
And it won't be on the last call
Cause you know that now it's hid
Away now
Away now
And it goes into your chest
Away now
Away now
And you can't just tell the rest
It's not over tonight
It's not over tonight
It goes away now
Away now
But it's not over tonight
It's not, it's not over, over
It's not, it's not over, over
It's not, it's not over, over
It's not, it's not over, over
It's not over tonight
It's not over tonight
It goes away now
Away now
But it's not over tonight
It's not over tonight
It's not over tonight
It's not over tonight
