

# Long Way Down

Zola Jesus

You were the one that would say  
We were one in the same  
But now it's in you  
It's in you always  
And on the heels of the days  
When all words were saved  
But now it's in you  
It's in you always  
And on the face of it  
It's never forgetting  
Don't follow it down  
The clocks are indebted  
It's long way down  
They don't need to let you know that  
It's a long way down  
Far from the cracks in the bay  
Down town the worries will make  
But now it's in you  
It's in you always  
Find all your reasons to stay  
Half time it slows to a quake  
But now it's on you  
It's on you always  
And on the face of it  
It's never forgetting  
Don't follow it down  
The clocks are indebted  
It's long way down  
They don't need to let you know that  
It's a long way down  
They don't need to let you know that  
They don't need to  
(they don't need to let you know)  
It's long way down  
They don't need to let you know that  
It's a long way down  
They don't need to let you know that
