Wiseblood

This'll be my last home But this stream will carry me through But this stream isn't home no more And truth can make immune

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing?

And this'll be my one remorse But this stream's kept me abused And this stream is a hungry course And time can make it new

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing?

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing?

In these parting days, I am losing all my senses In these timeless days, I can barely see through In this crowded space, I am losing all my senses In these drowned out bays, I can barely see through

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing?

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing?

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing?

If it doesn't make you wiser Doesn't make you stronger Doesn't make you live a little bit What are you doing? **Zola Jesus**
