

# We Are The Ones

Zombie Girl

Come here and join us, we know what your body needs  
We are the ones who walk for every hunting in the dark  
Nobody will escape the hunger  
Nobody's getting any younger  
We are the ones who will appreciate  
Tomorrow you will have no sorrow

(2x)

We come for you  
We're coming closer now  
We're hunting for you  
We're coming closer now  
We're gonna get you  
We're coming closer now  
No where to hide  
We're gonna get you now

No need to fear us we are here just to tear your soul apart  
No place to run for you we will find a way to get to you  
Nobody will escape the hunger  
Nobody's getting any younger  
We are the ones who will appreciate  
Tomorrow you will have no sorrow

We come for you  
We're coming closer now  
We're hunting for you  
We're coming closer now  
We're gonna get you  
We're coming closer now  
No where to hide  
We're gonna get you now
