

Sometimes We're In Love

Zox

Colorado don't cry
The ring was supposed to make you laugh
I bought it at the corner store
The one with flowers at the back
Remember what we said?
Just because it's good don't make it last

Always, always
I'll keep coming around
And you'll keep letting me in
You'll find my arms open wide
When you feel like a friend
I got my fingers crossed that when you wake up
I'm still the one you're always sometimes dreaming of
Sometimes we're in love

It was hard to be alone
When our nights were filled with noise
But drinking in the balcony
I could only hear your voice
Remember what we said?
Loving you was worth breaking your heart

Always, always
I'll keep coming around
And you'll keep letting me in
You'll find my arms open wide
When you feel like a friend
I got my fingers crossed that when you wake up
I'm still the one you're always sometimes dreaming of
Sometimes we're in love

I get you all to myself
It don't take much to realize
That somebody else
Is loving you sometimes

So I'll keep coming around
And you'll keep letting me in
You'll find my arms open wide
When you feel like a friend

I got my fingers crossed that when you wake up
I'm still the one you're always sometimes dreaming of
Sometimes we're in love
I'm still the one you're always sometimes dreaming of
Sometimes we're in love
I'm still the one you're always sometimes dreaming of
Sometimes we're in love
I'm still the one you're always sometimes dreaming of
Sometimes we're in love
