

Lizard Life

ZZ Top

I got the attitude
And that's all I ever say
Don't have to tell nobody
How their tail ought to lay

Had a sudden revelation
The heights that I've sunken down to
And I don't mind I can't find
My way out of this witch's brew

Livin' for the lizard life
Livin' for the lizard life
I stumbled on the way around
My own reality

Gettin' right-tightly wound
Past the pale of normality
I like big loungin' every day
On the iguana side of town

The lizard love, it mighty deep
Talkin' way underground

Livin' for the lizard life
Livin' for the lizard life
Livin' for the lizard life
Livin' for the lizard life

I be a reptile all day
And it's so fine
Ain't no other way
Like a life minus mind

I prefer reclinin'
Beatin' that conga drum
And waitin' for a three-point landin'
On my sticky tongue

Livin' for the lizard life
Livin' for the lizard life
Livin' for the lizard life
I'm livin with a lizard life
